Dear Troy:

I want to thank you for taking time to help us out by preparing and presenting at the Voluntary Action Program's annual Certified Professional training course this year.

As you know risk assessment under the VAP, and multiple chemical adjustment in particular, is an area that many of the Certified Professionals have had questions about and have requested additional training from the Agency for some time. Your presentation was well planned and succeeded in providing a wealth of information to the attendees.

Again, thank you for all your hard work preparing for and presenting at the 1999 VAP Certified Professional training. We in the VAP look forward to working with you in the future.

Sincerely,

Amy Yersavich
